WHY CHOOSE US .

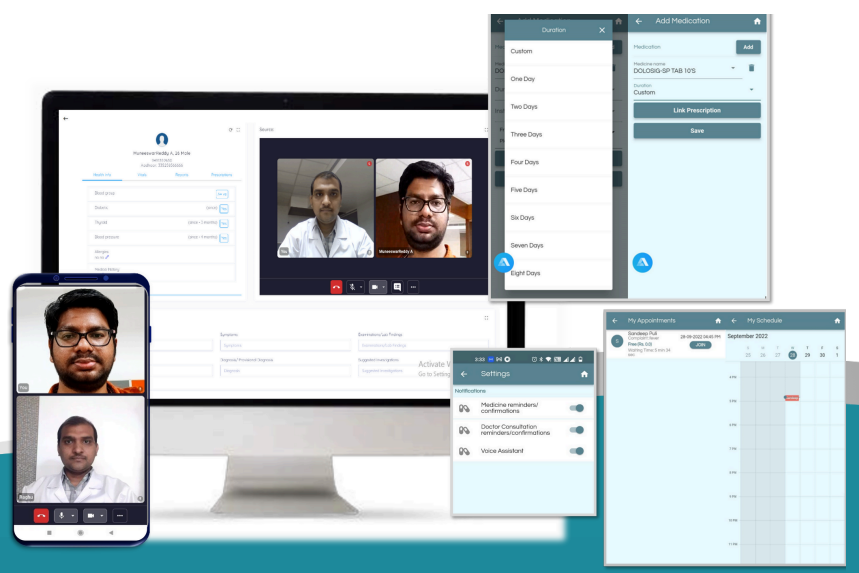

Care at Your Fingertips

Voice first experience

Prescription History

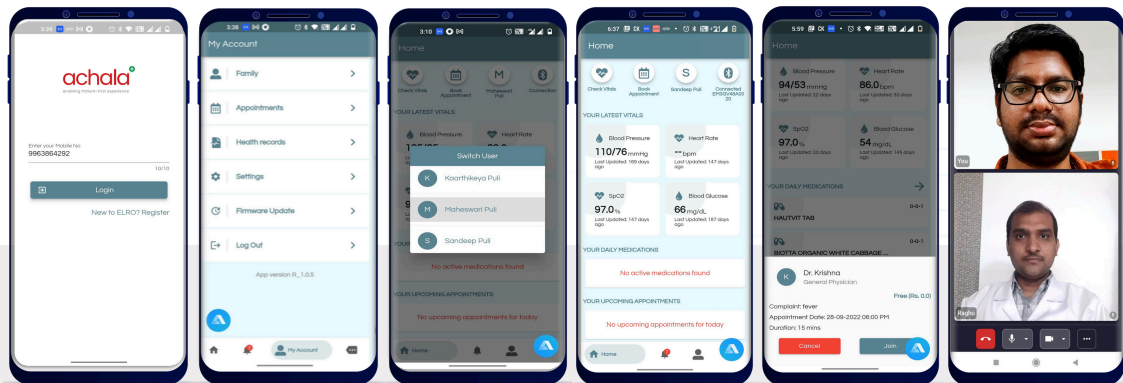

Medication Alerts

e-prescription

Smart ELRO Telemedicine Platform in a Nutshell

Our telemedicine platform provides a comprehensive, enterprise-wide solution for all your digital healthcare needs. It offers a single software platform that supports multiple medical specialties and a wide range of care applications, from low-acuity to high-acuity cases.

Core Modules

Patient App

Manage profiles, appointments, health records, vitals, lab reports, prescriptions, and video consultations.

Doctor App

View patient data, manage appointments, handle registrations, configure fees, and conduct video consultations.

Call Centre Portal

Oversee patients and doctors, manage payments, monitor appointments, and handle medication alerts.

Medication Alert system

Customize medication alerts, manage prescriptions, and receive in-app notifications.

Client Success Story

ADITYA BIRLA GROUP

In collaboration with Aditya Birla Group (ABG), Achala Health Services Pvt Ltd has developed the ELRO telemedicine platform to provide comprehensive health support for ABG employees, ensuring accessible and effective care anytime, anywhere.

This involves deploying a telemedicine platform with key features like:

- Patient dashboard
- Health Records
- Booking appointments
- Video Consultation
- Feedback on doctor
- E-Prescription
- Doctor application
- Data-driven actionable insights

BUSINESS IMPACT

20% - 25% increased better healthcare accessibility

5% - 15% reduction in missed appointments

20-30% improvement in patient satisfaction ratings

Let`s See Who We Are?

At Achala Health, We are passionate about transforming healthcare delivery through innovative technology solutions. Our team of experts combines industry knowledge, practitioners' expertise, and cutting-edge technologies to develop patient-centric applications.
